

SRF Public Notice
SRF Number FS-25-26-DWSRF-061

City of Van Meter
Water System Improvements

PUBLIC HEARING NOTICE

The City of Van Meter will be holding a Public Hearing to review an application for a State Revolving Fund (SRF) loan and to make available to the public the contents of an environmental information document and the City's project plan. These documents include design and environmental information related to the proposed improvements to the City's water supply system.

The proposed project will drill a new shallow well to meet current and projected water needs, and construct a new water treatment plant. This plant will include a detention tank, aerator, two pressure filters, one reverse osmosis unit, chemical feed equipment, high/low service pumps, a standby generator, and a ground storage tank. Additionally, the project will improve water mains by installing raw and finished water piping, hydrants, and valves. The city may retire and abandon the Booster Station No. 1 after the water treatment plant is in service. The proposed improvements will include all necessary connections and appurtenances.

The purpose of this Public Hearing is to inform area residents of the Van Meter community of this proposed action, discuss the actual cost and user fees associated with this project, and to address citizen's concerns, if any, with the plan.

The Public Hearing location and time are as follows:

MONDAY, NOVEMBER 23, 2026, AT 6:00 PM
CITY HALL
310 MILL ST
VAN METER, IA 50261

All interested persons are encouraged to attend this hearing. Written comments on this proposal may also be submitted prior to the hearing. Questions regarding this hearing or the availability of documentation may be directed to the Project Contact Travis Cooke, City Clerk at 515-996-2644 or tcooke@vanmeteria.gov. Additionally, public comments can be sent to SRF-PC@dnr.iowa.gov.
